

BVC Varta month September 2018

1. Significant Achievements:

a. Achievement of Central Laboratory Animal House

Central Laboratory Animal House of Bombay Veterinary College has received approval as a trader from Government of India, Ministry of Environment and Forest and Climate Change, CPCSEA (Committee for the purpose of Control and Supervision of Experiments on Animals) New Delhi.

It is one more feather in the cap of Bombay Veterinary College as the trading permission for laboratory animals is with limited organisations like NIRRH, ACTREC, NIN (ICMR). The CPCSEA recommended the approval on basis of the existing facilities and its outstanding contributions in the field of laboratory animal research and services. This achievement is result of coordinated efforts of Dr. Sushant Sole, In-charge of Animal House Facility and active participation of Dr. Sangram Chavan and well-timed administrative support from Associate Dean, BVC. This will defiantly help to sustain and expand the existing test facility and full-fill the demand for laboratory animals from MAFSU and nearby institutes for research and education purpose.

2. Trainings organized / imparted:

a. Scientific Goat Farming Training Programme

“Scientific goat farming” training programme was organized at Instructional Livestock Farm Complex, Bombay Veterinary College, Goregaon, Mumbai from 05th to 7th September, 2018. 64 Trainees participated in the training programme. This training was conducted under the guidance of Dr. P. L. Dhande, Associate Dean. Dr. H. Y. Palampalle & Dr. A. H. Kodape acted as Training Coordinator. Dr. V. H. Pawar, Dr. G. M. Gadegaonkar & Dr. A. P. Mendhe assisted in the training programme. Certificates were distributed to the trainees after completion of the training programme.
